WINDOWS

Designed, Manufactured and Fitted with Care

Why Choose an *Exclusive* Composite Door?

Choosing a door to your home should be done with care and consideration. It will be with you for many years to come and so needs to be something of which you are proud and with which you are comfortable to live with.

The choice you make in selecting your new insulated composite door is important, as you want it to serve you well for many years to come.

It needs to be attractive, strong and secure, weather repellent and give outstanding insulation. Add to that the ease of cleaning and with a surface that will withstand life's trials, tribulations and general wear and tear and you will have a door that is right for you.

The door's good looks can be further enhanced by choosing decorative glass that compliments or even contrasts with the door colour. The ranges of glass that are available for each door style are clearly shown in this brochure.

Whether you want subtle or striking, clear or coloured glass and varieties of opacity to provide privacy to a level you require, there is a choice for you.

Appearance

Our doors look good and are aesthetically pleasing. We've got:

- A Comprehensive Range of Traditional and Modern Door Styles
- A Choice of Classic and Contemporary Colour Options
- An Extensive Collection of Decorative Glass

Security

Our doors protect your home from unwanted visitors. We've got:

- An Impact Resistant GRP with Rigid Polymer Subframe
- A High Density Polyurethane Foam Core
- A Door that is Tested to PAS 24 and Fully Compliant to Secured by Design Requirements

Weatherproof

Our doors keep the elements at bay! We've got:

- A Waterproof Door Leaf
- A High Performance, Weather Resistant, Glazing System
- Weather Performance Certification to BS6375 - 1 Classification for Weather Tightness, Air, Wind and Water

Heat Insulation

Our doors keep your home insulated and your bills down. We've got:

- A High Performance Insulating Core
- High Performance Insulated Glass Units
- A Door that Exceeds Approved Document L of the Building Regulation Requirements

Sound Insulation

Our doors protect you from external noise. We've got:

- Baffling Against Noise with a High Performance Insulating Core
- At Least Outdoor-Indoor Transmission Class (OITC): 26db
- At Least Sound Transmission Class (STC): 29db

Durability

Our doors have been tried and tested for over 20 years! We've got:

- Doors with Strength from their Construction
- Doors with High Impact Resistant Skins
- Doors which are Durable, Whatever the Weather Conditions

"Everything you want from a composite door..."

Energy Efficiency

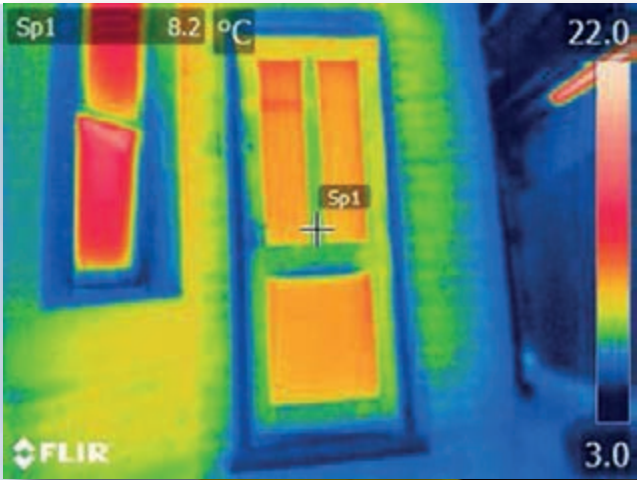

“Keep the warm in and cold out!”

ENERGY EFFICIENCY

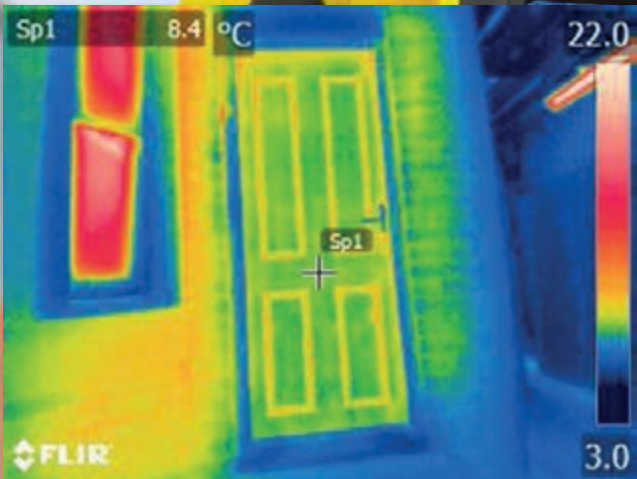

An Exclusive GRP composite door is more energy efficient than a traditional timber door or a solid composite door - fact!

With the rising cost of our energy bills and the environmental impact of energy use now means that people are more astute and want to keep their consumption to a minimum. We all worry about how much energy our homes use and so one of the best ways to conserve energy within in our home is to fit energy efficient products. These products will keep the warm in and cold out, thus saving you money and protecting the environment at the same time.

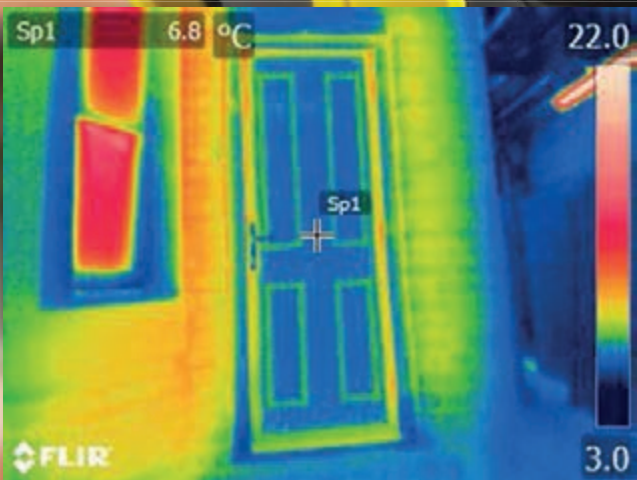

When it comes to thermally efficient doors, the wiser and astute person is choosing an Exclusive GRP composite Door.

Traditional timber panelled door

Solid timber core composite door

Exclusive GRP composite door

The photos show the thermal efficiency of each of the doors which have been tested. The darker the blue, the less heat being lost. Reds and greens - the predominant colour on the timber door - indicate high heat loss.

The *Exclusive* Collection

ENERGY EFFICIENT COMPOSITE DOORS

A family of four is shown in a warm, cozy living room. In the background, a fireplace with a bright fire provides a warm glow. A man in a blue patterned sweater sits behind a woman in a red sweater. They are both smiling and looking towards a tablet computer held by the woman. A young girl in a white knit sweater sits to the left, and a young boy in a plaid shirt sits in the foreground, also smiling. The overall atmosphere is warm and inviting.

"Keeping warmth in... draughts & breezes out!"

Exclusive Composite Door Styles...

Traditional Door Styles - Pages 8 to 26

DOOR STYLES

There are various styles of doors available within the Exclusive Collection.

Whether you are looking for a traditional entrance door, a modern styled door or something different there are plenty of options available to you.

Each particular door style has its own individual characteristics with each offering different levels of light to flood your interior space.

Light levels can also be varied when choosing your glass options.

Contemporary Door Styles - Pages 30 to 43

Stable Doors - Pages 44 to 48

French Doors - Page 50

The *Exclusive* Colour Collection...

COLOURS

Our doors come in five standard colours with two woodgrain options.

However, with our high performance paint technology we also offer a range of modern shades.

This high performance paint technology also allows you to choose any colour from a RAL Colour Chart.

This therefore gives you the ultimate unlimited palette of colours to choose from and make your door unique to you.

Standard Colours

*Please Note: Certain door styles may have a restricted standard colour range.

Enhanced *Security*
as Standard

Don't become a statistic...

67% OF BURGLARIES
ARE ATTEMPTED
THROUGH A DOOR!

That is why high security locking
systems are fitted to every door...

Secured by Design

Official Police Security Initiative

...make sure your family is secure!

Multi-point *Locking*

Our doors have been developed with high security multi-locking systems to provide enhanced security, strength and resistance against any unwelcome visitors, giving you complete reassurance and 'peace of mind'.

The *Exclusive* Collection

High Security Composite Doors

The entrance to your home serves two main purposes; to act as a welcome to you, your family and friends and to keep unwanted visitors and the elements out.

Whether you require an inward or outward opening door, left or right hung preference or the choice of a low threshold easy access option for wheelchairs and pushchairs, you can rest assured that your door will look elegant whilst offering outstanding performance and security.

Secured by Design

Official Police Security Initiative

Enhanced Security is a Secured by Design Composite Door

For that added 'peace of mind' we provide composite doors with Secured by Design Certification. This means our doors have been rigorously tested for intrusion and have passed PAS 24 at the British Standards Test House.

Our composite doors come with PAS 24 / Secured by Design multi-point lock options and when fitted on our Composite Doors quickly identify to specifiers and the public the quality and resilience of our products.

Make sure you choose a Secured by Design Composite Door for total security.

Door Hardware

Ideal Solution!

The Stable Door is the ideal solution for a back door, yet is the perfect choice for a front door too. You can open the top to bring in light in to your home whilst still keeping children in.

The *Exclusive* Collection

Versatile and practical Stable Doors

A stable door allows the opening of the upper leaf to provide light and ventilation, whilst keeping the lower leaf closed to prevent children or animals leaving the home.

On a pleasant summer's day, one can well imagine the pleasure of looking out of the door and smelling the air while leaning on the lower leaf and just passing the time... bliss!

The hardware that is used has been tested thoroughly for suitability of purpose, security and weather protection.

A variety of colours and glazing options are available for a door that is something different and a bit special.

Glazing Options

Your choice of glass design is the perfect finishing touch to your door

As you've browsed through our door styles, you will have seen which decorative glazing options compliment which doors.

We offer a range of different decorative glass designs, covering everything from traditional to contemporary. Certain designs come in a choice of colour options to compliment your door selection and create a stylish finish.

All but one of the range is triple glazed, so the delicate decorative panel is encapsulated between two clear panes. Not only does this strengthen the pane, it also protects it from dust, making it exceptionally easy to clean!

Triple Glazed
ANDAMAN – Decorative triple glazing featuring clear bevels, various textured backing glass and brass or zinc caming

Triple Glazed

The *Exclusive* Collection

Obscure Glass

You also have the option of inserting an obscure or clear glass panel to your chosen door. These are slightly obscured to vary the degree of privacy inside and out but draw in large amounts of light.

Obscure glass provides a simple solution to your door design.

**67% OF BURGLARIES
ARE ATTEMPTED
THROUGH A DOOR!**

That is why high security locking systems are fitted to every door...

Lock Options

Door Locks

ERA Vectis Plus

The Vectis Plus door locking system has hardened plates giving enhanced strength and security, whilst being cylinder free.

With no euro cylinder, this means the Vectis Plus is free from cylinder manipulation, breaking / snapping and plug extraction, thus giving maximum security.

The Vectis Plus is also a visual deterrent to potential intruders as there is no euro cylinder on view.

**CYLINDER-FREE
Multi Point Locking**

ERA Trimlock

The Trimlock Euro Cylinder door locking system is a more traditional door locking mechanism.

With bi-directional throws and a central deadbolt to prevent unauthorised entry.

Fitted with the ERA anti-bump, anti-pick, anti-plug and anti-drill euro cylinder combined with a protective guard, this provides ultimate security when it comes to protecting the home.

**FITTED AS
STANDARD**

Yale Mantis 3

The Yale Mantis 3 door locking system is a euro-cylinder style door locking mechanism.

With six locking points, the Yale Mantis 3 is very secure and prevents unauthorised entry.

When fitted with the Yale 3* Security Cylinder this provides you with the ultimate in door security when it comes to protecting the home.

Why not upgrade your Cylinder?

Yale 3* Security Cylinder

The Yale 3* cylinder is a TS007 Kitemarked Anti-Snap security product to provide maximum security against known cylinder attack methods.

The cylinder has been developed to the highest standards with a number of additional security features including anti-drill, anti-bump, anti-screw, hardened grip deflectors, hardened reinforced bar and a snap-off front section.

The *Exclusive* Collection

Digital Door Viewer

View live images of who is at your door!

The 3.2" viewing screen provides large clear images of any visitor to your entrance door. A 105° viewing angle gives a good panoramic scope of the viewing area.

The Yale Digital Door Viewer is robust and weather resistant in construction to IP56

Digital Door Viewers

An innovation in door viewer security

Digital Door Viewer

with internal memory

View and record live images of who is at your door!

Images are stored in the internal memory so you can see who called when you were out. The memory is extendable by adding a SD card allowing you to capture more for longer periods of time.

The 3.2" viewing screen provides large clear images which is up to 10 times bigger than traditional spy holes. A 105° viewing angle while not suffering from image distortion found in traditional door viewers. There is also built in LED for assisted night time viewing.

How about a keyfree *Handle*?

The Yale Keyfree Handle

The Yale Keyfree Handle gives you freedom to secure your home without the need for a key. Simple to use, you now have complete control on how you unlock your door.

The lock can be programmed with up to twenty 4 - 10 digit PIN codes and a 3 minute lock out occurs if the code is entered incorrectly 5 times. A tamper alarm is also fitted to make you aware of unauthorised attempts. Complete with two key fobs.

Door *Frame*

Choose your entrance door threshold - Either full frame PVCu or a document M compliant aluminium low threshold

When choosing your frame style, it is important to understand which frame threshold is best suited for your entrance door.

Whether you require a full PVCu frame or a frame with an easy access aluminium threshold, the option is there for you!

Which door will you choose to make **your home** more secure, thermally efficient & elegant?

Make sure you have an *Exclusive* Collection composite door fitted today!

Technical *Information*

Construction

Every Exclusive Collection composite door is manufactured to the highest of standards to ensure it is strong, durable and secure.

The door has a perimeter sub-frame of a solid, water-resistant polymer material, which is reinforced with Laminated Veneered Lumber (LVL). A thermoset GRP skin is bonded to this sub-frame and the core of the door is then filled with high density, 100% CFC-free polyurethane foam. Finally, water resistant polymer composite rails protect the core from damage or water absorption.

The door's core is what makes it so thermally efficient and so good at reducing sound. In fact, as you can see from the images on page 4, it is the most thermally efficient door on the market, increasing your home's energy efficiency and saving you money on your energy bills.

The high impact resistant thermoset GRP skin not only keeps your door looking good, it will not expand and contract laterally so your door will not crack or delaminate. All standard solid colours are pre-pigmented and beautifully through-coloured. All other colours are oversprayed with a durable paint that will not peel or crack.

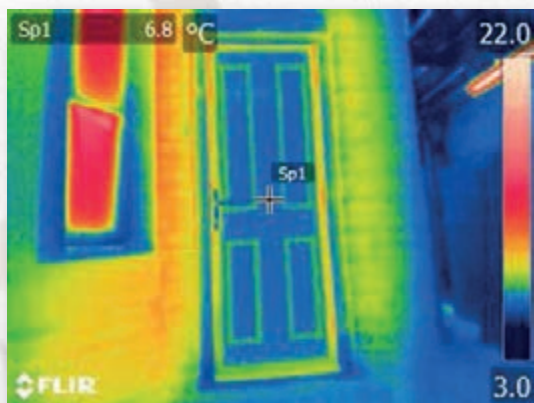

Technical Figures

An Exclusive Collection composite door has a wealth of facts and figures that prove its quality. The door:

- achieves BS 6375-1 for weather tightness, air, wind and water
- achieves PAS 24 security standard, a prerequisite for achieving Secured by Design status
- reduces outdoor noise by an average of 31dB
- achieves Global Warming Potential (GWP) score of less than 5
- achieves Ozone Depletion Potential (ODP) score of zero
- meets UK Building Regulations U value requirements of $1.6 \text{ W/M}^2\text{K}$

In other words, everything about an Exclusive Collection composite door has been designed to enhance your home for years to come.

Care and Maintenance

Your Exclusive Collection composite door has been designed to be easy to maintain.

To keep your door clean, prolong the life of the surface finish and protect your warranty, we recommend you wash it regularly using warm soapy water (washing up liquid is ideal) and a soft lint-free cloth. If you live in a coastal area, in a heavily industrialised area or near a main road, you may need to clean your door more frequently.

It is important that you DO NOT use any of the following on your door:

- abrasive cleaners or scouring pads
- any type of bleach or solvent (e.g. white spirit, methylated spirit, cellulose thinners, acetone or nail varnish remover)
- any type of adhesives or tack for providing temporary protection or fixing of seasonal or other decorations etc
- high pressure or steam cleaners.
